F-FU-HAHAHA
DON'T WORRY, IT'S NOTHING

Hello there, it's Serere. It's the post-note.
I wrote about Mayu-shii this time too
Since the last one didn't had many pages, I'm recharging myself with Mayu-shii the unlucky child
Your hair and your eyelashes are hard to draw, Mayushii-san!!

But beside that, the anime began!
I'm healed at every episode by Mayushii
The part I love the most is the "Juicy Karaage No"!
And I also spill my drink everytime while listening to the non-sense and the laugh of Okarin

I was working while watching the anime
and I found the "BUT IT'S A GUY" part cute along with the working Mayu-shii Nyan Nyan
so I forcefully put it inside the doujin. I feel fulfilled
Since it's faithfully following the original work, I can't wait of the second-part battle.
I will be able to make some effort starting tommorow

I also put a rough-draw of the title page.
I was drawing it all straight,but I found putting
it a little to the side was making a fine effect of deepness.

Well I'm starting to lacking space to write
Thank you for reading it until the end~
